

Sangeeta Shetty

Web Developer

PERSONAL PROFILE

I'm a Web Developer and a Student based in India.. I'm looking for an internship/job in order to enhance my skills and gain more knowledge and experience.

EXPERIENCE

Trolley Dolly

I have been working for some clients for the past few months.

This project has not yet been completed. It is a team collaboration where we helped our client in building a website to stand out from the crowd. The main focus while building the website was to reach the right people (crew members) which will automatically grow the business.

KEY PROJECTS

I have been working on some personal projects. Currently I made a Git Command Automation (CLI Application made using oclif and child process). This CLI application automates your task by just running one command instead of running 3 to 4 commands for pushing the code to github. [Github link](#)
